## Project Spotlight shines a light on NBI lounge renovation

Just like you, here at Brenner Design we believe that good work is its own reward... but that doesn't mean we don't enjoy the occasional accolade or "attaboy!" When SitOnIt Seating and IDEON chose the work we did for The National Bank of Indianapolis as a Project Spotlight feature, it was certainly icing on the cake.

We loved creating an employee lounge for the hard-working NBI staff,

one that they would definitely enjoy using. It's nice to know you're playing a small part in making someone's day a little brighter.

You can [read about the project on our blog](#), where you'll also find a link to SitOnIt Seating's July 2015 newsletter with the Project Spotlight article.

*Diana MH Brenner, FAIA, is an award-winning architect and president of the largest woman-owned architectural firm in Indiana. Brenner Design is a full-service architectural and design firm that specializes in relocation, renovation and rebranding for commercial and public sector clients.*
